

## SYM-TECH PRODUCTS DATA SHEET

<b>ITEM</b>	
Name:	Architectural elements system.
Brand:	SYM-TECH
Category:	Decorative, architectural and structural concrete stones.
Country of origin:	Canada, Québec
<b>SPECIFICATIONS</b>	
Description:	Hydraulic concrete pieces used for exterior siding on residential commercial and industrial buildings. The stones are incorporated into various types of masonry to increase prestige and durability while imparting soundproof and fireproof qualities.
Composition:	<ul style="list-style-type: none"> <li>- HOLCIM cement powder</li> <li>- Aggregates (stone and sand )</li> <li>- Additives (makes mixes more malleable, increases strength in MPa and offers superior resistance to freeze-thaw cycles.)</li> <li>- Isorod and other reinforcement</li> <li>- Mass-coloured</li> </ul>
Concrete characterist	<ul style="list-style-type: none"> <li>- Strength of 35 MPa -Air 5 @ 8%-Spread of 500 mm with self-placing properties</li> <li>- Absorption rate of 0.6%</li> </ul>
Maintenance:	The stones are basically maintenance-free. Note that it is best to apply a sealant to concrete parts to facilitate cleaning and prevent damage caused by de-icing salt.
Size:	Varies by part.
Installation:	In accordance with the standards set out in the National Building Code of Canada
<b>COMMERCIAL CHARACTERISTICS</b>	
Price:	Check with the manufacturer.
Warranty:	1 year limited warranty covering manufacturing defects.
After-sales service:	We are committed to quality. Our mission is your satisfaction.
Terms of sale:	Check with the manufacturer.
Additional products:	Our TREM product line: <ul style="list-style-type: none"> <li>- TREM architectural elements system, including the SAS line of imported products.</li> </ul>

<p><b>CUSTOM FEATURES</b></p> <p>Advantages:</p>	<ul style="list-style-type: none"> <li>- Products are custom-made for each project.</li> <li>- Parts can be structural at the customer's request.</li> <li>- Specialized in non-standard parts.</li> <li>- Ability to create custom colours and finishes using sandblasting or exposed aggregates (light, medium or deep) for each project.</li> </ul>
<p><b>BRAND IMAGE</b></p> <p>Advantages over the competition:</p>	<ul style="list-style-type: none"> <li>- High end products.</li> <li>- Our products have a service life of more than 80 years.</li> <li>- Technical drawings for the approval of all stones.</li> <li>- Installation plan provided.</li> <li>- Quality control system.</li> <li>- Non-standard sizes available.</li> <li>- Expertise.</li> <li>- Service.</li> <li>- Manufacturer reputation.</li> <li>- Ability to meet deadlines.</li> <li>- Warranty.</li> <li>- Virtually every part is reinforced.</li> <li>- Innovative products.</li> <li>- Restoration of existing parts.</li> <li>- Laboratory testing, quality assurance report and approval of parts by an engineer available upon request.</li> </ul>

**IMPORTANT NOTES:**

Concrete products vary in colour by 5-10% and we use a mixer of ½ cubic meters for more accurate colouring.

Production time for parts broken on the job site:  
48-72 working hours after receipt of the request.
